2018 Invincible 40 Catamaran

Boat Type: Center Console

Address: Miami, FL, US

Price: \$639,000

OVERVIEW

Sea-keeping ability is our objective with the 40'. We created a boat that would tear through seas from any direction, while still being able to maneuver turns at high speeds. It was designed to go far in less than optimal running conditions. With the optional 800 gallon fuel capacity, the cruise range bumps up to a massive 670 nautical miles. Roundtrip Miami to the Exumas could be done without a pit stop. Not too many center consoles can make it that far, and far fewer can keep up once the seas get rough.

Our patent-pending catamaran hull incorporates the best elements from our monohulls with the additional stability provided from a multihull design. Morelli & Melvin, creators of many America's Cup sailing yachts, designed the hull through cloud computing utilizing advanced fluid dynamics software originally intended for use in aeronautical environments.

They generated the incredible hybrid semi-asymmetric design that eliminated undesirable characteristics present in many powered catamarans. As a result, our catamarans can maneuver at high speeds as well as a monohull along with comfortably handling quartering and following seas. Fuel economy is still comparable with our monohulls, even with the increased overall size.
